## WALE ADEYEMI

**SUPERDRUG** is launching a new accessories range designed by **Wale**, including this cute shopper for just £4.99.

His last range for the store sold out after **Kate Moss** was spotted with one of his designs, and his new collection will be available in stores next month, with profits going to **The Prince's Trust**. A right royal bargain.

## RECYCLED JUICE PACK

THESE refreshing shoppers - £9.99 from [ecoutlet.co.uk](http://ecoutlet.co.uk) - are made from recycled juice packs and come in three vibrant designs: **Green Tea**, **Watermelon** and **Zesto Mixed Fruits**. Sourced from Fair Trade organisations and made by a women's co-operative, the materials were destined for a landfill site.

## WAYNE HEMINGWAY

THE "Bag For Life" was designed by **Wayne** for the **Traid** charity, which recycles and sells second-hand clothes and shoes to raise money for aid projects.

Aimed at cutting the use of plastic bags in the UK, the carrier is made from 100 per cent jute fibre (hessian) so it's eco-friendly and durable. Bag yourself one for just £6 from [adill.com](http://adill.com) and make your pals green with envy.
